

Cheevo Champions

The Cheevo Champions challenge is BountyMode's periodical achievement hunting marathon hosted on [Discord](#). Bounty hunters that complete the challenge earn the *@Cheevo Champion* role and gain access to exclusive giveaways.

How It Works

1. [Join BountyMode's Discord server](#).
2. Get 100% achievement ratings in indie games, and post screenshots of your completions in the *#trophy-room* channel. The hundos you post should have been achieved at most 5 days prior to posting.
3. When you post your hundo screenshots to *#trophy-room*, be sure to use the command `!gamerjuice` to receive your XP for that post.
4. You will gain XP for posting your hundos in *#trophy-room*, and eventually you will earn the *@Cheevo Champion* role. This will give you access to the hidden *#champion-lounge* channel and your exclusive giveaway.
5. **No achievement spam games.** Anyone in the community can flag a post as achievement spam with a thumbs-down emoji. A mod will then review and your XP may be deducted. The mod's decision is final.

If you're aiming for the *@Cheevo Champion* role, please endeavor to post only hundos that fit the criteria of the ongoing Cheevo Champions challenge. Hundos of any other sort will not garner XP, and they may cause your current XP to be wiped.

To check your current XP level, type `!rank` in *#cocktail-bar* or *#bot-service*.

The Cheevo Champions challenge may also change episodically. Sometimes the challenge may call for any and all indie game achievements, other times it may require you to play from a set list of titles.

You can keep tabs on ongoing Cheevo Champions challenges on [BountyMode's blog](#).
